140th Anniversary of Thailand–Japan Diplomatic Relations (1887–2027)

140 Years and Beyond

What will we build together next?

日タイ修好140周年、そしてその先へ。

Beyond 140 — a platform for four groups of young Thai and Japanese leaders to keep working together

October 2026

The next generation is the future of Thailand–Japan relations

MESSAGE FROM THE AMBASSADOR

Promote exchange among the younger generations, and pass the bond between our two countries — as equal partners — on to the next generation.

H.E. Mr. OTAKA Masato
Ambassador of Japan to Thailand

> **138th anniversary message (Sep 2025)**
> Mutual understanding is deepening, especially among the younger generation.

Summarised from the Ambassador's messages (Feb & Sep 2025) · Embassy of Japan in Thailand

1

Strong on both sides, but not yet connected

Young Thai and Japanese leaders each have their own networks, but no shared platform.

2

When the celebration ends, so does the momentum

Most activities for the 120th, 130th and 135th anniversaries ended within the year.

3

No "common ground" to coordinate

There is no lasting channel when people move or change roles.

NATIONAL AGENDA

A national priority for both countries

Investing in young leaders today builds the partnership of tomorrow.

From a one-day celebration to a network that lasts until the 150th anniversary

Beyond 140 is not designed to end on the day. It is the start of a network of young Thai and Japanese leaders who meet, think together and pass the relationship on — turning **remembering the past** into **building the future**.

1	From “dots” one-off events	→	**To “lines”** A network that meets every year
2	From “audience” one-way listening	→	**To “co-creators”** All four groups think, propose and act together
3	From “people” a few key individuals	→	**To “systems”** Common ground that keeps working when people move on

WHAT WE WILL BUILD TOGETHER

01 **A 4-group leaders’ platform**
Get to know each other and share strengths

02 **“140+ Commitments”**
Concrete actions each group will take forward

03 **The Beyond 140 Network**
Common ground that meets yearly, generation to generation

2027 → 2037 Lay the foundation today for a mature network by the 150th
